IMPORTS.

*United Kingdom.*—The imports from the United Kingdom exceed those from any other country, Arabia excepted. During the year under review, the value of the imports has increased to the extent of almost one lákh and a half of rupees. Coal is the chief article imported. An increase is noted in the following articles :—white cotton piece-goods, iron bar, steel, provisions, oilman stores and treasure. A large number of sundry articles were received through the Parcel Post, and have for the first time been incorporated in the returns. There is a decrease in the value of the following articles which were imported :—coal, coloured twist and cotton piece-goods.

*Austria.*—There is an increase in the value of the following articles :—amber beads, coloured twist, flour, timber and writing paper of an inferior quality. There is a marked decrease in the value of the gold and silver thread imported, and which last year largely contributed towards the increase in the imports from this country. Kerosine oil has fallen off to a very appreciable extent.

*France.*—Wines and spirits have continued to be imported from this country, and their value shows an increase over that for last year. There is an increase also in the value of the apparel, amber beads, vegetables (potatoes) and oilmen's stores imported.

*Italy.*—There has been a marked improvement in the trade with this country. Amber and glass beads, provisions and cigars are the chief articles under which an increase in the value is noted.

*Other Countries in Europe.*—Holland, Gibraltar, Malta and Greece are included under this head. Holland has almost entirely contributed to the increase, owing to the steamer "Netherland Orange" having foundered in Aden Harbour, and her damaged cargo having been sold for one and three quarter lákhs of rupees.

*United States of America.*—The imports of grey cotton piece-goods exceeded in value those of last year by two and a quarter lákhs. The value of the kerosine oil imported, however, was less than that of last year by nine-tenths of a lákh.

*Egypt.*—Treasure accounts for the increase in the imports from this country.

*Abyssinia (Sowakin* and *Massowah).*—The return shows an increase in the imports from this country to the extent of almost 2½ lákhs, but 2 lákhs of this is on account of treasure. The arrival of the Italians at Massowah has stimulated the trade with Aden, and there is an appreciable increase in the value of the hides, skins, ivory and jabad (civet) imported.

*East Coast of Africa extending from below Massowah to Ras Hafun.*—The import trade from this long tract of coast line has increased by 2¾ lákhs during the year. The increase is due to the importation of live stock (goats and sheep), coffee, feathers, gum arabic, olibanum, fish fins, ghee, shells, mother-o'-pearl. There is a slight decrease in the value of the hides and skins imported.

*Zanzibar.*—In this is comprised the whole of the territory owned by the Sultán. The imports from this country showed an increase in the following articles:—grain (jowári), hides, seeds (gingelly), sugar unrefined, and treasure. Cloves, ivory and rafters have not been imported to anything approaching the quantities of former years (*vide* remarks in last year's report).

*Mauritius.*—There is a decrease in the imports from this island, the most noticeable being in sugar.

*Arabia.*—During the year under review the import trade with this country has increased by Rs. 11⅓ lákhs. The increase is chiefly in coffee, skins and treasure. A falling off is, however, noticeable in the following articles:—cotton piece-goods dyed country, fish fins, seeds (gingelly) and tobacco.

*Turkey in Asia (Bussorah).*—The import trade, which is confined to dates, has fallen off to the extent of about a quarter lákh of rupees during the year.

*Persia.*—The import trade with this country is annually very little in excess of a lákh of rupees, and is chiefly in woolen carpets and tobacco. There was a slight decrease in the imports this year compared with 1884-85.

*Straits Settlements.*—Large quantities of inferior Java coffee are imported for re-export, and during the year the increase in this one article was nearly Rs. 2⅙ lákhs. Timber is no longer imported from Singapore, Trieste being now the port whence this commodity is obtained. Other articles show ordinary fluctuations.

*China (Hongkong).*—There has not been any material increase in the value of the sugar imported from this colony, but there is a marked decrease in the value of cinnamon, glass beads and silk piece-goods.

*Other Countries in Asia.*—The trade is not of sufficient importance to be commented upon in detail.

*Exports.*

EXPORTS.

*United Kingdom.*—Coffee this year has been very largely exported, the value being Rs. 5$\frac{1}{3}$ lákhs. Besides coffee, feathers, gums (arabic and myrrh), hides, skins, and shells (mother-o'-pearl) were exported to the United Kingdom.

*Austria.*—The exportation of coffee to this country has declined in value by Rs. 2$\frac{7}{10}$ lákhs; hides and skins have also decreased in value—the former by Rs. 1$\frac{4}{5}$ lákhs, the latter by Rs. $\frac{7}{10}$ of a lákh. Gum olibanum and shells (mother-o'-pearl) have, however, been exported in larger quantities during the year under review.

*France.*—Coffee continues to be exported to a less extent than in former years, but the trade in gum arabic, hides, and shells (mother-o'-pearl) has improved.

*Italy.*—There is an increase in the coffee taken by this country, but the trade in hides and skins remains stationary.

*Turkey in Europe.*—Hides only are exported to this country, and during the year there has been a falling off in their value to the extent of over rupees one lákh.

*Other Countries in Europe.*—Germany, Holland, Malta and Spain are included under this head. The trade with each is too insignificant to be reviewed in detail.

*United States of America.*—There is a very appreciable increase in the trade with this country, especially in coffee, hides and skins. The exports of these articles alone exceeded in value those of last year by over Rs. 4$\frac{1}{2}$ lákhs.

*Egypt.*—Again there is a falling off in the exports of coffee and gums (meithi and myrrh); on the other hand, gum arabic was exported in larger quantities than in 1884-85.

*Abyssinia.*—The exports of food and treasure have increased, owing to the internal strife which has existed in this country for the last few years. To this unsettled state of the country is also to be attributed the decrease in the export of other merchandise.

*East Coast of Africa.*—A large trade in cotton goods, grain, flour, dates, tobacco, &c., is carried on with the ports on the Somáli and Dunkli coasts. Treasure for the purchase of raw produce at these ports and in the interior is also exported from Aden. An increase in the export of the following articles is noticeable:—grey American piece-goods, rice, flour, provisions and sugar, but there is a falling off in the export of country grey piece-goods, coloured twist, jowári, dates and tobacco.

*Zanzibar.*—Kerosine oil and provisions have this year been exported in larger quantities than in 1884-85, but there was a decrease in the value of grey American cottons, woolen carpets and treasure.

*Mauritius.*—A decrease in the exports is noticed, owing to the grey American cottons for Madagascar not being shipped *viâ* this island. There is an increase in the export of inferior coffee to the value of Rs. 10,000 over that shipped in 1884-85.

*Arabia.*—A very large trade is carried on with this country. The items which run above a lákh of rupees in value are coffee (Java) and berries, country twist and piece-goods, grey American cottons, country coloured piece-goods, rice, jowári, refined sugar, silk raw and piece-goods, spices, tobacco and treasure. The export of Indian cotton piece-goods has fallen off to some extent.

*Straits Settlements.*—The value of the export trade for the year amounted to Rs. 1¾ lákhs, but of this Rs. 90,000 represent treasure. The export trade with other countries is small and unimportant.

13. The following statement shows the quantities and values of the principal articles imported:—

14. The features of the trade this year under the more important heads may be noticed:—

*Animals, Living.*—The increase in the value of goats and sheep imported is due to the large number which were required for the consumption of the troops at Suakim. They were shipped *via* Aden instead of, as in 1884-85, *viâ* Berbera.

*Coal.*—There was a small decrease in the quantity imported this year, which may be due to the establishment of coaling stations at Perim, Obokh and Massowah.

*Coffee, Clean.*—The increase is due to the large quantities imported from Arabia, Berbera, Zailah and Singapore. The low prices ruling during the current year may have induced merchants to buy in larger quantities than heretofore. The Java coffee imported from Singapore is cheap and of an inferior quality, and is only appreciated by the Arabs and Turks living in Yemen.

*Cotton Twist and Yarn.*—There is an increase in quantity, but a decrease in value. This resulted from Bombay manufactured twist being forced on the market at a time when there was no demand for it, with the hope that better prices than ruled elsewhere might be obtained.

*Cotton Piece-goods.*—About Rs. 14¼ lákhs represent Indian grey, Rs. 8 lákhs American grey, Rs. 1¾ Europe white, Rs. 1⅘ lákhs Europe coloured and Rs. 7⅘ lákhs country coloured. With the exception of Indian grey there is an increase in all the above-mentioned items. This falling off in the value of Indian grey is to be attributed to the direct shipments from Bombay to Hodaida; also to the preference shown by the natives for American grey cotton piece-goods over those manufactured in India.

*Feathers.*—There has been a slight increase in this trade, consequent on the demand for these articles by passengers of steamers which call at this port.

*Grain and Pulse.*—Rice, jowári and wheat were the chief articles of import. The value of the imports of rice from Calcutta increased by Rs. 2⅐ lákhs on account of the partial failure of the jowári crop in Arabia. For the same reason jowári was imported to a greater extent than in the previous year from Bombay and Karáchi.

*Gums and Resins.*—The increase is entirely in gum arabic, which was imported from Berbera and transhipped to Europe consequent on the limited supply obtainable from the Soudan at the time of the disturbances in that country.

*Hides and Skins.*—There is only a slight increase noticeable in the value of the hides imported. The value of the skins imported has decreased by Rs. 39,638.

*Ivory.*—There has been no improvement in this trade, which was formerly of a flourishing nature and carried on with Massowah. The only conclusion to be arrived at is that the Italians are prosecuting this trade to their advantage by shipping direct to Europe.

*Liquors.*—There has again been a decrease in the value of the total imports. Malt liquors (ale, beer and porter), which were imported in large quantities in 1884-85, fell off in the year under review. In spirits, brandy has slightly increased, while rum has decreased. Light wines were more in demand this year.

*Note.*—The quantities and values recorded in the returns represent what was actually taken out of bond for local consumption.

*Metals, Wrought and Unwrought.*—This trade is very small, and the congested state of the market in 1884-85 occasioned a falling off in the imports this year. Brass, iron bar and steel have slightly increased in value, whereas copper, iron beams and posts, lead and tin have decreased.

*Provisions and Oilman's Stores, including Wet Dates.*—The increase in the imports of oilman's stores was due to the demand for these articles in the newly established settlements of Suakim, Obokh, Assab and

Massowah. The United Kingdom, France and Italy mainly furnished these supplies. The trade in flour with Bombay and Trieste is flourishing consequent on the increased demand from the above-mentioned and other neighbouring ports. It is observed that there is a slight decrease in the value of the dates imported.

*Seeds.*—Gingelly oil is extracted from the seeds which were imported in larger quantities than in 1884-85. The locally manufactured oil was preferred by the Arabs to that imported from India, owing to the latter being deteriorated by time.

*Shells, Mother-o'-Pearl.*—There is an increase in the value of the imports of this article, which may be due to the pearl-oyster-fishermen finding a better market here for their goods than in the small ports of Arabia.

*Silk Piece-goods.*—There are great fluctuations in this trade. During the year under review the imports decreased by Rs. 97,000, whereas in 1884-85 there was a slight increase.

*Spices.*—The imports have decreased, owing to cloves being exported direct from Zanzibar to Europe, and not transhipped as heretofore at Aden. The consumption of cinnamon from China and of cardamoms ginger and pepper from India (Bombay) has declined.

*Sugar, Refined.*—There has been a slight increase in the sugar imported. Mauritius did not supply the usual quantity, owing to the want of facilities for its transmission to Aden. Bombay, however, made up for this deficiency by furnishing an increased quantity this year.

*Sugar, Unrefined.*—The value of the sugar unrefined imported from the Straits Settlements was less during the year under review than in 1884-85; there was, however, an increase in the imports under this head from Bombay and Zanzibar.

*Tobacco, Unmanufactured.*—The tobacco imported in 1884-85 was in excess of the demand; hence in 1885-86 there is a slight falling off in the value of this item.

*Treasure, Private.*—The scarcity of silver dollars at Hodaida obliged merchants to import specie from Bombay and Trieste. Gold was imported from Egypt and the Red Sea ports in excess of that received in 1884-85.

15. The next table shows the quantities and values of the principal articles of merchandise exported during the year:—

## Principal Exports.

16. Causes of increase and decrease in the principal articles of export:—

*Coffee, Clean.*—The export of this article has increased by nearly 5½ lákhs. This was occasioned by the price throughout the year being most favourable for shippers engaged in trade with the United Kingdom and the United States of America. France, Austria, Italy and Egypt do not appear to have taken as much as usual, possibly owing to their importing cheaper coffee from other markets. A large quantity of Java coffee, which was transhipped here, was, as in 1884-85, taken by Jeddah and other Arabian ports.

*Coffee, Berries and Husks.*—A small increase is noted.

*Cotton, Raw.*—The value of the exports of this article is too small to need commenting upon.

*Cotton Piece-goods.*—There is a small increase in the exports this year under this head, but it is insignificant if compared with the large decrease noted in 1884-85. The ports of Arabia and those on the East Coast of Africa take large quantities of grey cotton piece-goods, Indian and American. It is, however, observed that a preference is shown for grey American piece-goods, as they are of a better quality and are not sized to the same extent as are those manufactured in India.

*Feathers.*—There has been a decrease in the export of these articles to the United Kingdom, and it is attributable to the alterations in the fashions of ladies' and children's head-dresses. This also caused the demand to fall off in Egypt and in Europe generally.

*Grain and Pulse.*—Rice and jowári to the value of almost 8 lákhs were exported to Massowah, Suakim and other ports on the Red Sea littoral. The partial failure of the jowári crop in Yemen has already been given as a reason for the increase in the imports of grain from India.

*Gums and Resins* have been exported in larger quantities during the year under review than in 1884-85: 6½ lákhs was the value of the gum arabic which was exported to the United Kingdom and France. Bombay took less than in former years. An increase in the amount of gum olibanum taken by Austria is noted. The disturbances in the Soudan occasioned the heavy demands made on Aden for gums and resins.

*Hides, Raw.*—There has been a decrease in the value of the exports to the extent of 1½ lákhs, the trade in these articles with Austria and Turkey in Europe having fallen off consequent on the disturbed state of the latter country throughout the year. On the other hand, a slight increase is noticed in the value of the hides taken by the United Kingdom, France, Italy and the United States of America.

*Skins, Raw.*—In 1884-85 this trade fell off to a considerable extent: so the small increase of Rs. 48,930 in the value of the exports under this head is scarcely appreciable. The trade with the United States of America only shows an improvement.

*Ivory.*—The trade has declined owing to Massowah and Zanzibar shipping direct to Europe and Bombay. Singapore no longer appears as a customer for this article.

*Metal, Wrought and Unwrought.*—The increase is not of sufficient importance to need being dwelt upon in detail.

*Provisions, including Dates and Flour.*—The trade under this head has improved: *vide* remarks under the same head in Imports.

*Seeds.*—This also is a flourishing trade, as explained elsewhere in this report.

*Shells, Mother-o'-Pearl.*—Austria has taken Rs. 57,704 worth more than in 1884-85, the trade in the manufacture of buttons on the Continent having largely increased. The trade with Bombay in this item has shown a marked falling off.

*Silk, Piece-goods.*—This trade has again declined, Arabia being the only customer. Indian silk piece-goods are now shipped direct to the Arabian ports in the steamers engaged in the pilgrim trade.

*Spices.*—The decrease is general, as explained under the head of Imports.

*Sugar.*—There has been a slight improvement in the export trade of this article. The prices being very low, large shipments were made to Arabia, Abyssinia and the ports on the East Coast of Africa.

*Tobacco.*—The trade in this article has not been carried on as vigorously with the ports in the territory of the Sultán of Roheita as in former years, owing to the Turks having established more stringent measures to prevent its being smuggled into Yemen and other districts under their jurisdiction. It has, moreover, been noted that the imports of tobacco were less this year on account of the Aden market having last year been glutted.

*Treasure, Private.*—The increase in the export of treasure is due to the shipments of silver dollars to Hodaida and silver specie (rupees) to Bombay.

## Indian Trade.

Total Indian Trade, Import and Export.

17. The following table shows the values of the several classes of Indian Trade for this year as compared with those for the preceding one : —

| | | 1884-85. | 1885-86. | Increase or Decrease. |
|---|---|---|---|---|
| | | Rs. | Rs. | Rs. |
| Imports | Merchandise ... ... | 67,35,977 | 70,15,387 | +2,79,410 |

| Exports | Merchandise ... ... | 7,01,829 | 6,30,420 | −71,409 |
| | Treasure ... ... | 11,40,027 | 17,83,458 | +6,43,431 |

| | Total ... | 86,72,208 | 96,74,805 | +10,02,597 |

From the above table it appears that the trade in the year under review increased over that in 1884-85 by over 10 lákhs. Merchandise contributed 2 lákhs towards the increase, and treasure 8 lákhs.

18. The import private trade shows an increase in merchandise and treasure over that for 1884-85 of Rs. 4,30,575.

19. The export Indian trade of this year when contrasted with that for 1884-85 shows a large increase in treasure, but a falling off to the extent of nearly $\frac{3}{4}$ lákh in merchandise. The total increase in the value of the exports for the year was $5\frac{3}{4}$ lákhs.

20. In the following table the import trade with each Presidency, also with the Foreign Indian ports, is contrasted with that for 1884-85 :—

*Imports.*

| Total of Private Indian Trade ... | 68,30,352 | 72,60,927 | +4,30,575 |

*Bengal Presidency.*—The increase this year amounts to more than 2¾ lákhs, and is chiefly on account of rice, gunny bags and ginger imported from Calcutta.

*Madras Presidency.*—The trade is insignificant, timber and spices only being imported to a small value from Cochin.

*Bombay Presidency.*—A large and increasing import trade is carried on with this Presidency, the total value for the year under review exceeding 57⅕ lákhs. The articles in which an increase is noted are apparel, articles imported by Parcel Post, country cotton, twist and yarn, country dyed piece-goods, seeds gingelly, flour, silk piece-goods, sugar and treasure. There is a decrease in Europe coloured twist, country grey piece-goods, jowári, rice, ghee and tobacco. Imports from Karáchi of bájri, jowári and seeds gingelly have largely increased.

*Cutch and Káthiáwár.*—Steam communication with these provinces *viâ* Bombay has occasioned a decrease of almost 50 per cent. in the direct import trade. The coloured cotton goods, jowári and ghee formerly imported from Cutch and Káthiáwár now appear in the imports from Bombay.

21. The following table shows the export Indian trade with each Presidency and with the Foreign Indian ports :—

*Bengal and Madras Presidencies.*—There is no regular trade with either.

*Bombay Presidency.*—Of the exports to this Presidency, which are valued at nearly 24 lákhs, 17⅘ lákhs are on account of treasure. Treasure has this year increased by almost 6½ lákhs. The chief articles which have contributed towards the increase in the export are American cotton piece-goods, coloured twist and yarn, white and grey cotton piece-goods (part of the salved cargo *ex* S. S. "Netherland Orange"). There has been a decrease in the exports of gums (myrrh and incense), ivory and shells (mother-o'-pearl).

*Cutch and Káthiáwár.*—The value of the exports is very small.

## Inland Trade.

26. 1,75,862 camel-loads of merchandise were brought into Aden during the year 1885-86 from the interior of Arabia, showing a decrease of 23,568 loads when compared with the return for 1884-85. 36,814 camel-loads were brought from the British territory adjoining Aden, and consisted of chunam, drinking water, sweet oil, oil cake, vegetables, earthen-ware and raw skins. From this territory there was a falling off of 16,819 camel-loads, owing to drinking water not having been required to the same extent as in 1884-85.

27. The following statement contains the total number of camel-loads of merchandise which were brought into Aden during the year :—

| | No. of Camel-loads in 1884-85. | No. of Camel-loads in 1885-86. | Increase or Decrease. |

There is an increase in the number of loads of coffee and miscellaneous articles brought into Aden, but there is a falling off in the number of loads of drinking water owing to the large quantities of rain water which were stored in the reservoirs in the Crater during the year 1885-86. Fruits, vegetables, fodder and grain show a further decrease this year. An average of 481 camels laden with supplies of fresh vegetables, fodder, firewood, water and other commodities entered Aden daily, showing a decrease of 65 loads a day when compared with the figures of the preceding year.

28. The value of the land import trade aggregated Rs. 18,58,307 in 1885-86, showing an increase of Rs. 74,767 when compared with that of the previous year. This result is satisfactory notwithstanding the decrease in the number of camel-loads which were brought into Aden.

29. The export land-borne trade amounted to Rs. 7,43,416, being an increase of 1½ lákhs over that of the preceding year, which was Rs. 5,89,930. The value of the export land trade for the past five years is shown in the table given below :—

The trade in cotton goods, seeds (gingelly), spices and tobacco has slightly improved. The increase is owing to the contractor who farmed the Turkish inland customs having induced Arab merchants to import largely during this, his last year of office, with the view to his realizing a larger sum as duty.

30. The total value of the Inland Trade (imports and exports) for the last five years is contained in the following table:—

32. One thousand four hundred and thirty-two (1,432) merchant steamers representing 22,47,946 tons called at Aden during the year, showing an increase over 1884-85 of eighty-two (82) steamers aggregating 1,19,876 tons. Three sailing vessels of 2,048 tons also entered the port, being 4 less in number than in 1884-85, and representing a decrease of 2,418 tons. The coasting trade of Aden was carried on by 1,276 vessels representing 45,435 tons and showing an increase of 29 vessels and 1,526 tons when compared with the return for 1884-85.

Reasons for Steamers and Sailing Vessels calling at Aden.

33. Nearly 50 per cent. of the 708 merchant steamers which entered this port landed or shipped passengers and merchandise, being an increase of 36 over the previous year. 548 steamers, or 13 in excess of last year, called for coal. 64 steamers, or 6 more than in 1884-85, brought cargoes of coal. 41 steamers called for water and fresh provisions. 26 steamers called for letters, 14 for orders, 10 for clean bills of health, 11 for repairs, 2 for medical assistance, 1 for a telegram, 5 returned from sea, and 2 passed without communicating with the port. Three sailing vessels brought cargoes of rice from India.

34. Owing to the removal of quarantine against arrivals from India and China, 82 more steamers visited Aden than in the year 1884-85. 291 steamers called at Perim for coal, showing an increase of 70 over the preceding year.

Remarks on the increase and decrease in the number of vessels that called at Aden.

The increase of 36 cargo-bringing vessels is due to a small steamer having been regularly engaged in trade with Berbera, Bulhar and Zailah. Notwithstanding the coal companies paying all the port expenses of steamers which call here for coal, there has been no improvement in this trade during the year. This may be due to the low freights which have ruled, and which have obliged ship-owners to utilize all their bunker and some of their cargo space for the storage of coal for the voyage out to the East and even back to Port Said. Some steamers now take Indian coal at Bombay; and it has been found that, if mixed with a small proportion of Welsh, it answers fairly well. Australian coal is also largely consumed; and as its cost is so very small it is not surprising that sufficient is often carried to take steamers from New South Wales to Port Said.

35. The following table shows the number and tonnage of the merchant steam and sailing vessels which called at Aden during the past two years, together with a comparison between the totals for these periods. The vessels are grouped under the heads British, British Indian, and Foreign:—

More British steamers have called at Aden during the year 1885-86 than in any other years of the period under review, 1882-83 and 1883-84 excepted. British steamers represent nearly $\frac{2}{3}$ of the arrivals; French steamers come next in importance, and show an increase of 23 in the number, consequent on the frequent trips between Obokh and Aden made by a small coasting steamer. Austrian and Italian vessels called regularly. There was an increase of 7 steamers under the German flag and a decrease of 5 under the Russian, 12 under the Spanish, 23 under the Dutch, and 14 under the Egyptian. The Egyptians decreased to such an extent owing to their having ceased running to Berbera in July 1885.

REVENUE DEPARTMENT.

*Aden Residency, the 13th June 1887.*

FROM

MAJOR F. M. HUNTER,
Officiating Political Resident,
Aden;

To

THE SECRETARY TO GOVERNMENT,
Bombay.

SIR,

I have the honour to forward the Trade and Navigation* Returns of the Settlement of Aden for 1886-87, together with the Annual* Report thereon, which latter has, this year, been compiled by Captain H. M. Abud.

* By Book Post.

2. The trade of Aden is very difficult to deal with satisfactorily; as, although great care is exercised, the statistics cannot be considered as entirely reliable. Another reason is, that there is a transhipment trade, which is sometimes taken into account, while at others it escapes registration. This is the case with goods for Zanzibar and Massowah.

3. Captain Abud has taken much pains in the preparation of the report, and his system of noting increases and decreases by percentage is a decided improvement.

I have the honour to be,
Sir,
Your most obedient Servant,
F. M. HUNTER,
Officiating Political Resident.

# ANNUAL STATEMENT

OF THE

# TRADE AND NAVIGATION OF ADEN

## FOR THE YEAR 1886-87.

1. The returns of the Sea-borne and Inland Trade of Aden for the twelve months from the 1st April 1886 to the 31st March 1887 are herewith submitted.

2. The year, as regards trade generally, has been prosperous, but the Inland Trade shows a decrease of nearly 20 per cent. below the value of that of the previous year.

Total Trade.

3. The total value of the Sea-borne and Inland Trade of Aden for the year 1886-87, exclusive of Government stores and treasure, amounted to Rs. 4,74,56,607, showing an increase of Rs. 35,64,470, or nearly 8 per cent. above the value of the trade of the preceding year. Thus during the last two years the value of the trade of Aden has increased nearly 20 per cent. (the rise in the previous year being 12 per cent.). The rise in the year under review cannot, however, be said to be entirely due to an excess quantity of trade, but in many cases—notably coffee—to an increase in value merely, as the quantities have decreased though the value has risen. The imports from the United States have increased in value by 83 per cent., whilst those from the United Kingdom have fallen over 7 per cent.

Division into Foreign, Indian, and Inland Trade.

4. The trade is divided into Foreign, Indian, and Inland Trade, as shown below:—

| Division. | 1885-86. | 1886-87. | Increase or Decrease in 1886-87. |
|---|---|---|---|
| | Rs. | Rs. | Rs. |
| Foreign Trade ... ... ... | 3,16,15,611 | 3,53,50,082 | +37,34,471 |
| Indian Trade ... ... ... | 96,74,805 | 99,33,772 | +2,58,969 |
| Inland Trade ... ... ... | 26,01,723 | 21,72,753 | −4,28,970 |
| Total ... | 4,38,92,139 | 4,74,56,607 | +35,64,470 |

5. Foreign Trade comprises all trade with other countries than India. Indian and Inland Trade explain themselves.

Exports and Imports.

6. The value of the trade of Aden is tabulated below and contrasted with that of 1885-86:—

| | 1885-86. | 1886-87. | Increase or Decrease. |

| Total Value ... | 4,38,92,139 | 4,74,56,609 | +35,64,470 |

7. The total value of the trade for the five years 1882-83 to 1886-87 is entered below, together with the quinquennial average :—

Value of the Total Trade for the past five years.

| Years. | Total Value of Imports by Sea and Land. | Total Value of Exports by Sea and Land. | Value of Entire Trade. |
|---|---|---|---|
| | Rs. | Rs. | Rs. |
| 1882-83 ... ... ... | 2,34,82,826 | 1,71,53,153 | 4,06,35,979 |

| Average for 5 years ... | 2,40,28,659 | 1,89,63,255 | 4,29,91,913 |

*Note.*—It is thought that a more comprehensive view of the trade with each country would be afforded by entering the increase or decrease by percentage, and this method has accordingly been adopted. Actual figures are contained in the various statements attached.

*United Kingdom.*—The imports from this country exceed those from any other country, except Arabia. During the year, the imports have decreased in value by nearly 2½ lákhs of rupees, or 7 per cent. Coal, the chief article of import, is principally responsible for this—over 20 per cent. less having been imported. On the other hand, the price has risen 11 per cent. per ton. Other articles have decreased in value as follows:—Coloured twist, cotton piece-goods, metals, and treasure. Increase is noted in the value of the following articles:—Candles, liquors, matches, ships and parts of, and apparel. Advantage is now being taken of sending articles through the Parcel Post, which have increased in value by about 40 per cent. during the year.

*Austria.*—The imports have increased nearly 4½ per cent. in value. Articles in which increase is noted, are fruits and vegetables, liquors, flour, and sugar: decrease in coloured twist and treasure.

*France.*—The imports show a general increase of 37 per cent., which is principally noted in the value of candles, liquors, provisions, and sugar, while a decrease is shown in tobacco.

*Italy.*—The imports from this country show an increase of 64 per cent., which is principally in apparel, liquors, and provisions. It must be borne in mind, however, that most of these articles eventually find their way to Massowah for the use of the Italian troops there and at Assab.

*Other Countries in Europe.*—The imports show a decrease of 146 per cent. Under this head are grouped Germany, Holland, Malta, Spain, Turkey in Europe, and Belgium. Holland is responsible for more than the total decrease, as a salved cargo was sold in Aden during the preceding year. The other countries, with the exception of Spain, show a small increase.

*United States.*—This country shows the largest increase in its imports, *i.e.*, 83 per cent., and which is chiefly due to cotton piece-goods, kerosine oil, and carriages. No cotton bleached goods were, however, imported this year.

*Egypt.*—The imports have increased by ¼ per cent., which is principally in apparel. A decrease is shown in treasure. Raw silk was imported for the first time during the year, and was exported to Hodaida.

*Abyssinia.*—Under this head are included the ports of Massowah and Suakim. The increase is 46 per cent., and is chiefly in gum, mother-o'-pearl shells, and treasure. Hides and ivory, on the other hand, show a decrease.

*East Coast of Africa.*—The imports show an increase of 13 per cent., which is composed of cattle, feathers, gum arabic, maithie, myrrh, incense, hides, skins, ivory, mats, salved cargoes, mother-o'-pearl shells, and treasure. Goats, coffee, and ghee have decreased.

*Zanzibar.*—An increase of 34 per cent. is noted in the general imports, which is chiefly due to American piece-goods, skins, Zanzibar mats and seeds, gingelly, and cloves. A decrease in hides and unrefined sugar is marked.

*Mauritius* shows a decrease of 8¾ per cent. in its imports, which is due to refined sugar. Rum has, however, slightly increased.

*Arabia (including Perim).*—The imports from this country have increased by 11 per cent., and this is due to coffee berries, coffee clean, cotton piece-goods, drugs, aloes, gum maitie, gum incense, hides, skins, pearls, dates, ghee, and tobacco. A decrease in jowári, salved cargo, mother-o'-pearl shells, and treasure is noted.

*Turkey in Asia (Bussorah).*—The imports show a decrease of 15 per cent., which is principally in jowári and dates. Tobacco shows a small increase.

*Persia.*—The imports have decreased by 24 per cent., and this is due to ghee, tobacco, dry rose, and dried fruits. Carpets woven, mother-o'-pearl shells, dates, and sail cloth have increased.

*Straits Settlement.*—The imports have decreased by 59 per cent. The decrease is chiefly due to coffee clean, dyed cotton piece-goods Europe, dyed cotton piece-goods country, earthen-ware, gum benjamin, pepper, sugar unrefined, and treasure. Timber has fallen off altogether, and is now imported from Trieste. Coffee berries, garrow-wood, and tin show a small increase.

*China (Hongkong).*—Imports show an increase of 17 per cent., which is made up of earthen-ware, glass beads, and cinnamon. Sugar refined has decreased.

*Other Countries in Asia* show an increase in imports of 22 per cent. The cargo of the S. S. "Prinz-Hendrik" from Java was sold here after being wrecked, and has contributed chiefly to this increase. The imports from Mahe and treasure have also increased, whilst those from Ceylon and dyed cotton piece-goods Europe have decreased.

## Exports.

*United Kingdom.*—The exports have fallen 15 per cent. The decrease is in coffee clean, feathers, gum arabic, hides, and manure bones. There is, however, an increase in articles exported by Post, in gum myrrh, ginger, cloves, gum olibanum, and skins. The jewellery of Mahárájáh Dhulip Singh was also exported as freight, though imported as passenger's luggage : so value not included in this report.

*Austria.*—The exports to this country have increased by 72 per cent., and is due to coffee, gum arabic, gum olibanum, shells (mother-o'-pearl), and nutmeg. A decrease is observed in cloves, treasure, feathers, hides and skins.

*France.*—The exports show an increase of 54 per cent., and is chiefly due to coffee, feathers, gum arabic, cloves, and treasure. A decrease is noticed in hides, skins, and shells (mother-o'-pearl).

*Italy.*—A decrease is shown of 10½ per cent., which is principally due to hides. The exports of coffee and gum arabic have increased.

*Turkey in Europe.*—The exports have decreased by 20 per cent., for which hides and gum arabic are responsible. There is a considerable increase in gum incense and spices.

*Other Countries in Europe.*—The same countries are grouped under this head as in the remarks on imports. The exports have increased 70 per cent., which is due to the increased exportation of coffee and gum arabic to Germany, caoutchouch raw to Holland, coffee to Malta, gum arabic and hides to Spain, coffee, gum arabic, hides and skins to Belgium, and gum olibanum to Russia. The export of hides to Holland has entirely stopped.

*United States of America.*—The exports have increased by over 5 per cent., and is due to hides and skins. Coffee and feathers have decreased.

*Egypt.*—An increase is marked of over 30 per cent., which is due to coffee clean, feathers, rice, gum maieti, gum myrrh, cloves, hides, pepper, dates, and tobacco. Gum arabic and skins have decreased.

*Abyssinia (including Massowah and Suakim).*—Exports show an increase of 8 per cent. Apparel, works of art, coffee, American grey piece-goods, and jowári and food-grains generally have increased, while goats and sheep and cotton piece-goods country and Europe white have decreased.

*East Coast of Africa.*—An increase is noted of 10½ per cent. in the exports, and is attributed to grains, ghee, sugar, amber beads, kerosine oil, timber and wood, and treasure. There is also a very large increase (over 145 per cent.) in the export of tobacco, which used formerly to be shipped to Massowah and thence transported to Abyssinia. It is now shipped to the Dunakil Coast. A decrease is noted in all piece-goods and also in dates.

*Zanzibar.*—The exports show an increase of 150 per cent., and is due chiefly to apparel, coffee berries, coffee husks, and more especially to salted fish and treasure. A decrease is marked in grey American piece-goods and oil kerosine.

*Mauritius.*—The exports have fallen to almost nothing, and the decrease is due to coffee husks and treasure.

*Arabia (including Perim).*—An increase is shown of nearly 5 per cent., and is attributable to piece-goods country, American grey, jowári, rice, twist country, cardamoms, sugar unrefined, oil kerosine, and flour. There is, however, a very marked decrease in coffee berries and husks,

coffee (Singapore), Europe twist and piece-goods, country dyed piece-goods and pairs, wurrus, iron bars, gum benjamin, dates, ghee, silk raw, spices, tobacco, wood and timber, and treasure.

*Turkey in Asia.*—The exports have decreased by over 60 per cent., and this is due principally to treasure and oil kerosine. There is, however, a considerable increase in American grey piece-goods.

*Persia.*—A decrease of over 60 per cent. is shown in the exports, which is principally due to treasure, piece-goods, and coffee husks. There is a slight increase in oil mineral and rice.

*Straits Settlement.*—The exports to this country have decreased by 45 per cent., which is principally due to treasure, provisions, ghee, and Europe white piece-goods; the export of the latter and shells tortoise has ceased altogether. The exports to the other countries are small and unimportant, and are on the decrease.

## Indian Trade.

13. The following table shows the value of the several classes of Indian Trade for the year under report as compared with those of last year:—

| | | 1885-86. | 1886-87. | Increase or Decrease. |
|---|---|---|---|---|
| | | Rs. | Rs. | Rs. |
| Imports ... | Merchandise ... ... | 70,15,387 | 78,39,918 | +8,24,531 |

| | Total ... | 96,74,805 | 99,33,774 | +2,58,969 |

From the above statement it will be seen that the Indian Trade in general has increased by $2\frac{1}{2}$ per cent. over that of last year. Merchandise has increased by $10\frac{3}{4}$ per cent., while treasure has decreased by 39 per cent.

14. The import private trade has increased by $11\frac{3}{4}$ per cent. in merchandise, while treasure has decreased by 18 per cent.

15. The Export Indian Trade has decreased by 28 per cent., which is more than due to a decrease in the export of treasure, as merchandise has increased slightly.

16. The following table contrasts the import trade with each Presidency and the Foreign Indian Ports:—

| Total of Private Indian Trade ... | 72,60,927 | 80,47,449 | +7,86,522 |

*Bengal Presidency.*—The imports from this Presidency have increased by over 25 per cent., and this is almost entirely due to an excess quantity of rice, nearly the whole trade being in this commodity.

*Madras Presidency.*—The import trade from this Presidency is very insignificant, and has still further declined, for which tobacco is entirely answerable.

*Bombay Presidency.*—The imports have increased by 7½ per cent. Grain has made a tremendous advance (about 230 per cent. in jowári alone), and which may be ascribed to better prices and a favourable season in India. The imports from Karáchi have, however, decreased by 12 per cent., owing to the total stoppage of the shipment of gingelly seeds. Bombay cotton piece-goods and twist country have slightly decreased. Very little rain having fallen during the past year, hence the increase of the imports of food-grains generally.

*Cutch and Káthiáwár.*—The imports from these countries show an increase of over 20 per cent., which is nearly all due to an increased import of tobacco and the cheaper dyed country piece-goods from Cutch.

*Bengal Presidency.*—The exports have increased by over 310 per cent., owing entirely to the export of salt by the Italian Salt Company to Calcutta. This company is now prepared to export salt to India, with the exception of Bombay, to almost any extent.

*Madras Presidency.*—There is no trade with this Presidency properly speaking, the only transactions during the year being in treasure.

*Bombay Presidency.*—The exports have decreased by over 20 per cent., which is almost entirely due to the decrease in the export of treasure, and to the fact that, last year, the cargo of a wrecked ship was exported to this Presidency. Gums generally have decreased.

*Cutch and Káthiáwár.*—The exports to these countries are very small, and are steadily on the decrease.

19. The following table shows the exports to Berbera for the last five years, and are compared with those for the last two years. It may be remarked that all piece-goods have decreased very considerably, while food-grains have increased. This may be ascribed to shortness of rain in the interior during the year. Dates have also decreased, owing to direct shipment from Arabian ports since British protection has been established over the coast:—

## Inland Trade.

22. There was a large decrease in the number of camel-loads of merchandise brought into Aden during the year, which is due, in a large measure, to the fact that Sheikh Othman has been considered British territory, and loads of water coming from that place into Aden have not been included. The decrease in camel-loads is 15 per cent. The decrease is also partly due to a short quantity of rain in the interior.

Decrease is also marked in coffee, grain and pulse, but a slight increase in fruits and vegetables, fodder, wood and charcoal, and miscellaneous articles.

23. The value of the Land Import Trade decreased by 20 per cent., the reason for which has been noticed above.

24. The Export Inland Trade decreased by about 16 per cent., owing to the scarcity prevailing in the interior. The value of the Land Export Trade is shown below for the past five years:—

27. The more important articles of import are commented on below:—

*Animals, Living.*—Sheep and goats have decreased in number and value by $1\frac{3}{4}$ and 6 per cent. respectively, which may be attributed to the withdrawal of the British troops from Suakim and a consequent reduction in prices. Cattle have increased both in value and number.

*Coals* have decreased in quantity 17 per cent., but the value has not decreased proportionately, as prices have risen 11 per cent. per ton.

*Coffee, Clean,* has decreased in quantity $10\frac{3}{4}$ per cent., but only ·69 per cent. in value, showing a very large increase in price. The import of the inferior coffee from Java and Singapore has almost ceased.

*Cotton Twist and Yarn.*—There is a decrease both in value and quantity imported, which is due to the demand having fallen off in Arabia.

*Cotton Piece-goods* show an increase, both in value and quantity, of 19 and 4 per cent. respectively. The increase is entirely in American grey.

*Feathers.*—There has been a slight decrease in the trade, owing to feathers not being used generally for ornament.

*Grains and Pulse.*—There is a total increase, both in the value and quantity, of 46 and 53 per cent. respectively. Rice and jowári have been imported in large quantities, and show an increase of 31 and 100 per cent. in value respectively. It is attributed to the bad crop in the adjoining countries, where food-grains have been in great demand.

*Gums and Resins.*—The imports have risen 10 per cent. in quantity and 45 per cent. in value: this is owing to the price of gum arabic having risen over 75 per cent. Other kinds of gums, such as maieti, myrrh, and olibanum, have also slightly increased in value.

*Hides and Skins.*—Hides have decreased 40 per cent. in value, whereas skins show an increase of 61 per cent. in the value imported.

*Ivory.*—There has been a slight increase noticeable in the value of ivory imported, of 15 per cent. Ivory now arrives from Assab; Massowah, whence large quantities were formerly imported, now exports direct.

*Liquors.*—The trade has improved this year to the extent of over 58 per cent. in value and $2\frac{1}{2}$ per cent. in quantity. Ale, beer, and porter has increased by 38 per cent., spirits by 116 per cent., and wines and liqueurs by 18 per cent. in value. In spirits, brandy and whisky both have increased in value by Rs. 13,928 and Rs. 11,609 respectively; rum has slightly improved.

*Metals, Wrought and Unwrought.*—The former shows a decrease of Rs. 25,385, and in the latter an increase Rs. 10,243 is noted. The particular kinds in which there is a marked improvement are iron nails, steel, tin, and zinc; whilst brass, copper, iron bars, and lead have slightly decreased.

*Provisions and Oilman Stores,* including Wet Dates.—There has again been an increase of 5 per cent. in the value of "canned and tinned provisions" imported from France and Italy. The increase is due to the demand for these articles in the ports under the protection of France and Italy. The imports from the United Kingdom remain the same. Dates imported this year show an increase of 8 per cent. in value and 10 per cent. in quantity. This is attributed to the unfavourable crop of dates in Turkish Arabia from whence they are imported. Bombay and Trieste have again this year swelled the increase in the imports of flour to the extent of 46 per cent. in value. There has been a great demand for this article in the ports on the Red Sea littoral, where food-grain has been very scarce.

*Seeds.*—Gingelly seed is wholly responsible for the increase in imports by 9 per cent. in value and 18 per cent. in quantity, consequent on the large supply imported from Zanzibar.

*Shells, Mother-o'-Pearl.*—There has been again this year a large increase in the value of the imports of this article by 46 per cent.

*Silk Piece-goods.*—The trade is fluctuating every year, and no reasons can be given for its rise or fall.

*Spices.*—There has been a further decrease in imports, this year, of 17 per cent. in value and 22 per cent. in quantity. Out of the different articles classed under this head responsible for the decrease, are cardamoms, ginger, pepper, and turmeric from Bombay; on the other hand, a slight increase is noticeable in the imports of cinnamon from China and cloves from Zanzibar.

*Sugar, Refined and Unrefined.*—The former shows a decrease of 11 per cent.; and in the latter a slight increase of 2½ per cent. in the value of imports is noted. Sugar, refined, from Mauritius, China and Bombay has declined, whilst the supply from Austria (Trieste) and France has increased, owing to better quality and cheaper rates.

*Tobacco, Unmanufactured.*—A decrease of 15 per cent. in value and 9 per cent. in quantity, imported during the year under report, is noticeable. The decrease is due to the less demand from Massowah and the interior of Arabia.

*Treasure.*—There is a decline of Rs. 1,72,666, or 8 per cent. in the total value imported. Gold was imported less than in the previous year from Egypt and the Red Sea ports. There was no import this year from the United Kingdom, though gold to the value of 1⅕ lákhs of rupees was imported in 1885-86. The imports of silver specie have increased over that of the last year by Rs. 10½ lákhs, owing to the scarcity of silver dollars in Yemén.

## Exports.

28. In the following notes the more important heads are reviewed :—

*Coffee, Clean.*—The trade in coffee has advanced by Rs. 2,96,788, or 6 per cent. in value, but decreased in quantity by 7 per cent., or 6,976 cwts., consequent on the large increase in the price. The countries to which it is shipped in any large quantities are the United Kingdom, Austria, France, and the United States of America. Austria and France have taken more than the preceding year, while the shipments to the United Kingdom and the United States of America have fallen off, owing to the prices obtainable for Arabian coffee at those places not having been favourable.

*Cotton Twist.*—The exports have fallen off considerably, both in value and quantity, by 39 and 20 per cent. respectively. The whole of the decrease is noted under the head of Europe coloured twist, which was caused by the non-shipment of this kind to Massowah and Bombay in 1886-87.

*Cotton Piece-goods.*—The trade has declined 10 per cent. in the value exported. The Arabian ports in the Red Sea and those on the East Coast of Africa, including Massowah, have all imported less value than in the previous year.

*Grains and Pulse.*—The trade under this head has again increased to the extent of Rs. 8,17,683, or 64 per cent., over that of 1885-86, in which year a similar increase was also noted. The exports to Massowah, Suakim, and other Turkish ports in the Red Sea, as well as to the Dunakil ports, show a large increase. Rice and jowári show the largest increase.

*Gums and Resins.*—There has been a further increase in the value of exports by 45 per cent. Over $6\frac{4}{5}$ lákhs worth of gum arabic was exported to France, the United Kingdom took over 2 lákhs in value less than in the previous year. Again, this year the exports to Austria of gum olibanum have increased by $1\frac{1}{10}$ lákhs. The cause of demands made on Aden for gums has been the entire falling off of the large supply of Abyssinian and Soudanese gums to the European markets.

*Hides, Raw.*—A decrease has again been noted in this trade of 37 per cent. in the value of exports. Almost all Foreign Countries, except Belgium, (where they were exported for the first time), show a falling off to a considerable extent.

*Skins, Raw.*—An increase of 16 per cent. in the value of the exports of this article is noted. The exports to the United States of America show a large increase of over $2\frac{1}{3}$ lákhs. $\frac{7}{8}$th of this trade is carried on with the United States.

*Provisions,* including Dates and Flour.—There is a very slight decrease in the exports of oilman stores. Dates have also declined (*vide* remarks under the same head in imports). Flour shows a large increase in the value of exports by 64 per cent. The cause of increase is explained under the same head in imports.

*Seeds.*—The trade is steady, and shows a small increase, both in value and quantity.

*Shells, Mother-o'-Pearl.*—An abnormal increase in the export trade by 97 per cent. in value is noted this year. Austria has taken nearly the whole of the imports. Owing to improvement in machinery, small and thin shells can now be utilized, whereas formerly only large and thick shells could be worked, and this has increased the export.

*Silk Piece-goods.*—There has been a further decline in this trade under different heads, less having been exported to Arabia.

*Spices.*—The decrease is general: *vide* remark under this head in imports.

*Sugar.*—The trade has fallen off to the extent of Rs. 65,136, or 29 per cent. The exports to Arabia, Abyssinia, and the East Coast of Africa were less than in the previous year.

*Tobacco.*—The trade in 1885-86 fell off considerably. The presence of the Italians on the Dunakil Coast has contributed very considerably to the increase of the trade, which has revived 48 per cent. The exports to Massowah have almost ceased.

*Treasure.*—The decrease is trifling (about 2 per cent.) in comparison to the total exports, and needs no comment.

## Shipping.

Total number and tonnage of the merchant vessels which visited Aden.

29. The total number and tonnage of the merchant vessels which entered the port of Aden for the last two years are shown below:—

| | Total ... | 2,646 | 23,02,951 | 2,808 | 22,55,292 | +162 | - 47,659 |

30. There is a decrease of 1·76 per cent. in the number and 1·59 per cent. in the tonnage of merchant steamers that entered the port during the year. Seven sailing vessels of 6,237 tons entered the port, being an increase of 4 vessels and 4,189 tons over those of last year. The country craft show an increase of over 12 per cent. in number, but only ·02 per cent. in tonnage. It must be noted that local vessels and vessels making Aden a terminal port have increased the number of vessels calling at Aden by 151.

31. Of the total number of vessels entering the port of Aden, 33 per cent. called for coals only, 2·6 per cent. brought coals, 54 per cent. brought cargo, 4 per cent. called for provisions, 4 per cent. called for orders, 6 per cent. called for repairs, 4 per cent. called for water, 2 per cent. called for bills of health, 2 per cent. called for telegrams, ·06 per cent. brought distressed seamen, ·06 per cent. called for letters, 14 per cent. called for medical attendance, ·06 returned to Aden from Bombay after registry, ·06 per cent. returned from sea, 2 per cent. called for mails, ·28 per cent. called for coolies, ·06 per cent. called for burial, and ·06 for news.

Remarks on the increase or decrease of vessels that called at Aden.

32. The number of vessels that called at Aden has decreased 1·76 per cent. on last year's returns, and a decrease of 23 per cent. of vessels that called at Perim; it may be noted, however, that there is a decrease of over 13 per cent. in vessels that passed to the Suez Canal. The increase of cargo-bringing vessels may be ascribed to there being now 3 local vessels that run to and from the Somáli ports. The large decrease in the number of vessels bringing coal may be attributed to extra stock having been in hand last year, and also that many steamers now carry sufficient coal to carry them beyond Aden, owing, it is presumed, to the low price of freights. And also to Indian and Australian

coal being cheaper than English, a sufficient quantity being carried to enable the steamer to reach Port Said.

33. The following table shows the number and tonnage of the merchant and sailing vessels which called at Aden during the past two years, together with a comparison between the total for this period :—

Number and nationality of merchant vessels that called at Aden during the last five years.

34. The undermentioned table shows the nationality of the vessels which called at the port during the five years 1882-83 to 1886-87 :—

It will be noticed that British steamers calling at Aden have declined more in proportion than any other nationality. Last year, British steamers formed nearly $\frac{2}{3}$rds of the total arrivals. German and Italian steamers have increased considerably, which is owing to the more extensive operations of the North German Lloyd and Florio Rubattino Companies. French steamers have also declined. Austrian steamers have increased, and are nearly all owned by the Austrian Lloyds Company.

35. The different interests of the various countries in the shipping of Aden are classified under four heads, and percentages for five years entered under each head:—

1. The returns of the Sea-borne and Inland Trade of Aden for the twelve months from the 1st April 1887 to the 31st March 1888 are herewith submitted.

2. Trade has increased during the past year by over 42 and a quarter lákhs. The increase has mostly been in Foreign and Indian trade. In Inland trade there has only been an increase of a little over a lákh, which still leaves it some three lákhs less than in 1885-86.

In that year there was a decrease in the value of imports from the United Kingdom and an increase from the United States. This year the order is reversed and the imports from and exports to the United Kingdom have increased by 11 and a half lákhs, ten and a half of which is on account of imports, whereas there has been during the year under report a decrease of over 8 lákhs in the value of merchandise imported into Aden from the United States and an increase of over 4 lákhs in that exported.

# ANNUAL STATEMENT

OF THE

# TRADE AND NAVIGATION OF ADEN

## FOR THE YEAR 1888-89.

1. The returns of the Sea-borne and Inland Trade of Aden for the twelve months from the 1st April 1888 to the 31st March 1889 are herewith submitted.

2. Trade has increased during the past year by over 139½ lákhs, the increase being chiefly in the Inland and Foreign Trade. In the Inland Trade there has been an increase of 10½ lákhs, being an increase of 1 lákh and a half over the year 1883-84, the most prosperous year hitherto.

Total Trade.

3. The total value of the Sea-borne and Inland Trade for the year 1888-89, exclusive of Government stores and treasure, amounted to Rs. 6,56,54,541, showing an increase of Rs. 1,39,58,281, or 27 per cent. above the value of the trade of the preceding year.

*Notes on Increase of Trade.*

Ninety-six sailing and steam vessels entered Aden in excess of the number for 1887-88: consequently, a greater quantity of merchandise was imported.

In consequence of the rise in the price of grain at Hodaida and other Arabian Gulf ports, very large quantities of the article had to be exported to those ports, which of course was imported from India.

Increase in imports is also due to the P. & O. Company regularly running the S. S. "Assam" and "Siam" as goods steamers between Aden and Bombay, as also the M. M. Company's Steamer "Labourdonnais" *vid* Karáchi.

Increase in the trade with Suakin and Massowah is due to a more settled state of those countries than was the case last year: the trade with Massowah is specially to be noticed; this it is supposed is due to the more reconciled state of affairs between the Abyssinians and Italians.

Zanzibár has also taken much of the export trade during the past year (about 12 lákhs); this it may be supposed is due to activity of the Germans on the East Coast of Africa; the rise is chiefly in country cotton piece-goods.

Increase in tobacco from Persia and India is due to high prices ruling at Hodaida and other Arabian Gulf ports where the article is chiefly exported.

Increase in the import of coffee is due to extreme prices ruling for the article in the European markets and the United States, where the exports have been more than 18 lákhs over that of the preceding year.

Raw hides and skins show a very large increase over that of the past year, *viz.* Rs. 7,30,000 as exported to the United States.

Owing to a better tone of the European markets for gums there has been an increase in the exports to those ports of about Rs. 3,65,000 over that of last year.

*United Kingdom.*—As was the case during the preceding year, the imports from the United Kingdom largely exceeded that of any other country with the exception of Arabia, but during the year under report the imports from the United Kingdom have increased 18½ lákhs, or 68·78 per cent., while from Arabia the increase is only 15½ lákhs, and from past years it is apparent that the United Kingdom trade is overtaking the Arabian. There is an enormous increase in cotton twist, no less than 1,700 per cent. It has entirely ousted the Bombay twist from the market, and there has been a small importation of silk piece-goods, there previously having been none.

*Austria.*—The imports show a steady increase of 17·8 per cent. as against one of 25 per cent. for the previous year. This is most marked in cotton twist and piece-goods, which have increased respectively to 3 and 9 times the amount of the preceding year. In liquors and provisions there is a slight decrease.

*France.*—The imports show an increase of nearly 2 lákhs, or 26·02 per cent. There is the commencement of an importation of cotton piece-goods, an increase of grain and pulse, with a decrease of liquors and provisions, and a large increase of silk and sugar.

*Italy.*—There has been an increase of Rs. 11,401, or 15·10 per cent., on the preceding year; this is most noticeable in cotton twist. Of piece-goods there were none imported as against 18,160 yards of the previous year. There is a falling off in grain and pulse, but an increase in wines.

*Other Countries in Europe.*—This expression includes Germany, Holland, Belgium, Turkey in Europe, Malta. There is a decrease of Rs. 54,538, or 35·64 per cent., as against an increase of the previous year of Rs. 65,451; there has been a marked increase in piece-goods, cotton, and a decrease in sugar and wines.

The *United States* show a large increase of Rs. 7,31,272, or 103·07 per cent. This nearly compensates for the previous year's decrease of Rs. 8,37,672; this is due to the re-establishment of American piece-goods, which during the year 1887-88 had fallen considerably.

*Egypt* shows a continual decrease amounting to Rs. 40,789, or 11·23 per cent., during the year under revision; there is a decrease of pulse, gum and treasure.

*Abyssinia* shows a decrease of Rs. 3,31,979, or 57·86 per cent. This is due to the fact that whereas exports from Abyssinia formerly passed through Aden, they are now carried direct from Massowah by Italian boats. The decrease is in piece-goods, European and American, feathers and gums: an increase in pulse, a great increase in hides and a deficiency in skins and marked increase in ivory and flour is noted.

*East Coast of Africa* shows an increase of Rs. 10,29,975, or 26·45 per cent. There is a decrease in cattle, coffee, feathers, and ivory, an increase in grain, gums and hides.

*Zanzibar* shows a decrease of 1¼ lákhs nearly, or 25·39 per cent., as against an increase of 42·67 per cent. for the previous year. There is a decrease in piece-goods cotton American, grain and pulse, hides and skins, ivory, spices. There is a large increase in gums and seeds.

*Mauritius* shows an increase of Rs. 1,09,553, or 83·35 per cent. This restores the decrease of Rs. 1,06,084 of the preceding year (and is due, as is also the decrease of the preceding year, to sugar).

*Arabia* shows an increase of 15,73,568, or 31·36 per cent.; coffee, cotton piece-goods have increased. There has been a falling off in sheep and goats, grain and hides.

*Perim Island* is the same as last year, there being only a decrease of Rs. 55, or ·84. This is owing to a decrease in the number of animals, sheep and goats.

*Turkey in Asia.*—The imports show a most satisfactory increase of Rs. 2,32,908, or 76 per cent. This is due to a large increase in grain and pulse, dates and tobacco.

*Persia* also shows a marked increase of Rs. 1,09,838, or 148·09. The increase is due to tobacco and carpets, of which last there has been a large import.

*The Strait Settlements* show an increase of Rs. 1,51,632, or 54·25 per cent. There has been an increase in coffee (large) silk and treasure, and a decrease in cotton.

*China.*—There has been a decrease of Rs. 48,220, or 32·96 per cent., chiefly owing to silk. There has also been a decrease in spices and sugar.

*Other Countries in Asia* show an increase of Rs. 17,739, or 44·76 per cent., due to tobacco Rs. 6,50,000 and a slight increase in gums and dates. A decrease in coffee and piece-goods; grain has fallen off entirely.

The general total shows a decrease of 28,944, or 1·20 per cent.

*Bengal Presidency* shows an increase of 33·17 per cent. This is entirely due to an export of over 11 lákhs of treasure, trade having almost entirely fallen off.

*Madras Presidency.*—The trade seems to have entirely collapsed, there being only an export of Rs. 490 as against a trade of Rs. 5,970 for the preceding year.

*The Bombay Presidency* shows a slight decrease of 2·11 per cent. There is a marked decrease in the export of country and American piece-goods cotton, an equally marked increase of European piece-goods.

*Indian Ports not British.*—There has been a decrease of Rs. 4,663, or 35·66 per cent., this being a slight increase over the trade of 1886-87. There has been a large increase in piece-goods American; otherwise the trade is unimportant.
